375/4 Maria 12, Prachapattana Road,
Thabyao, Latkrabang, Bangkok 10520

From specialized education to further development through work, my work has evolved quickly with each shift in job. There is an obvious progression, and you must have a genuine desire to continue doing it since you may lose your spark along the road. However, for me, this is not the case. It motivates me to perform better with each new challenge.
